

BB26 – “PREMIÈRE PIERRE”

BB26 SA

Route de Bois-de-Bay 26, 1242 Satigny, Geneva.

Signed plans

On July 8th, we celebrated the traditional “Première pierre” for BB26 and had a traditional Portuguese lunch prepared by the workers.

What is called “the first stone” is actually a symbolic first stone laid at the start of work on a building or a real-estate project.

The plans of the project are signed by everyone, with success wishes and placed in sealed capsules, which are placed in the foundations of the building before being, as tradition dictates, covered with concrete.

Concrete covering the capsule

Sealed capsule placed in the foundations

Meal prepared by the workers
